

2015 Iron Bowl Squares

Proceeds benefit the **American Cancer Society & Tide for Troops**

How do you play?

We start off with an empty 10 by 10 grid (100 Squares to choose from). One team is assigned to the columns, one team is assigned to the rows.

Miami Dolphins									
New York Giants									

ALABAMA									
AUBURN									

Choose which square(s) you want and write your name in the square(s) to claim it
(\$10/Square- cash or checks to "American Cancer Society")

Once all the squares have been filled, numbers will be assigned at random to each column and row
(0 through 9 to each column & row).

Each square represents a specific score in the game based on the column and row numbers.

A winner will be determined at the end of the 1st, 2nd, 3rd quarters, and Final Game score. The winner is determined by looking at the last number in each teams' score, and then matching those numbers on the grid and seeing which square intersects those two numbers. An example would be if the Miami Dolphins were playing the New York Giants in the Super Bowl, and the score at halftime was Miami Dolphins 23, and NY Giants 14. The last number for the Dolphins is 3, and the last number for the Giants is 4. The square on the grid that has the Dolphins with a number of 3, and Giants score of 4, would be the winner.

Miami Dolphins										
New York Giants	8	5	6	4	1	2	3	9	7	0
	0									
	6									
	2									
	4									
	7									
	9									
	1									
	3									
	5									
	4
