

# HOPE Lives Here:

*"I was diagnosed in 2001 and had a double mastectomy at 43 years old... did chemo and [had] reconstruction... nine years later, that nasty stuff came back! Throughout the journey the **American Cancer Society** has been there for me: **Look Good , Feel Better** made me look and feel beautiful; **800-227-2345** is on my speed dial... ACS even hooked me up with a similar survivor when I found out that it came back... I [participated in] a clinical trial with the first bout! Thank you ACS for **research** money—That's why I'm still here! We've come a long way since 1962 when my Mom was diagnosed!"*

**HOPE Lives Here...**

**—Jean "Bean" Keagle;**  
14 year survivor ("oops... it came back, so now I'm a 5 year survivor!!")

*"I had my stem cells harvested a month ago and was privileged to stay at **Hope Lodge**, funded by **Relayers**... My cancer was found early. Because of **research** and the many options available for my treatment, I feel **optimistic** about the future..."*

**...and here.**
